

Green is your favourite colour? Congratulations. You could be a **maincuber!**

NEW TEAM MEMBER WANTED!

In order to monitor and fulfill our corporate goals, we are looking for a new member to strengthen our "Operations" team in **Amsterdam**.

Electrical Engineer

maincubes, headquartered in Frankfurt am Main, is a German company and part of the medium-sized Zech Group, Bremen, Germany. maincubes provides its customers with a network of highly available data centers in Europe that enables colocation in conjunction with secure eco-systems for the digital future of companies in various industries.

YOU CAN SUPPORT US!

- ◆ You maintain and perform operational procedures and operational tasks reliably and consistently
 - ◆ You manage the operation of outsourced services to maintain the protection of enterprise information and reliability of service delivery
 - ◆ You plan and monitor the extension of especially our electrical plant for customer needs
 - ◆ You monitor the technical infrastructure and related events
 - ◆ You take measures to maintain protection against environmental influences. Install special equipment and devices to monitor and control the environment.
 - ◆ You manage assets, including energy and communications facilities, in compliance with laws and regulations, technical and business requirements, supplier specifications, and health and safety guidelines
 - ◆ You establish and maintain identified solutions in accordance with business requirements, which include design, development, sourcing and collaboration with suppliers/vendors
 - ◆ You manage configuration, test preparation, testing, requirements management and maintenance of business processes, applications, information/data, infrastructure and services
 - ◆ You develop and implement a maintenance plan for the maintenance of solution and infrastructure components. You will also regularly review the business requirements that include operational requirements.

MAINCUBES SUPPORTS YOU!

- ◆ as a fast-growing company that values the further development of its business
 - on your opinion and experience
- ◆ plenty of room for new ideas and creativity, which are valued by us
- ◆ a friendly, motivated team with flat hierarchies that looks forward to working with you
- ◆ a modern workplace with good traffic connections
- ◆ the feeling of being warmly welcomed by us

BRING IN YOUR PERSONALITY!

- ◆ You have a solid experience (>5 years) in technically challenging environments
- ◆ You have solid knowledge in large electrical implementations including UPS installations
- ◆ You have experience in project management and can control and monitor rollout projects
- ◆ Process orientation, ITIL, ISO, ISAE are all no foreign words for you
- ◆ You are fluent in Dutch and English, German would be an advantage
- ◆ You work with a very high degree of personal responsibility and result orientation.
- ◆ There are no problems for you, only new challenges.

Please send us your complete application documents so that we can get a picture of you in advance. We will then get to know each other personally. We need the following documents:

- ◆ Testimonies
- ◆ Curriculum Vitae
- ◆ References
- ◆ Certificates of further training

Please send your application documents (preferably in English) with availability, preferably in PDF format, by e-mail, stating your name and not larger than 5 MB: [**jobs@maincubes.com**](mailto:jobs@maincubes.com)
