Your **SECURE** Home for Digitization

maincubes, founded in 2012 and **headquartered in Frankfurt am Main**, is part of the medium-sized Zech Group, Bremen. maincubes provides its customers with a network of high-availability **data centers of different sizes and characteristics** that enables **colocation** in conjunction with **secure eco-systems for the digital future** of companies in various industries.

Customers and partners of maincubes can connect worldwide via the **secureexchange®** platform and use the platform participants' **cybersecurity-, IoT-, connectivity- and cloud services** to expand their business opportunities. maincubes services are **secure, efficient and user-friendly** and are offered as part of the contract with **100% SLA availability** in the area of colocation.

Flexibility and security in a comprehensive sense is our highest quality criterion. All colocation data **verifiably** remains in Europe. maincubes is certified and tested according to **TÜV Level 3, ISAE3402, ISO27001 and ISO9001**.

Currently, maincubes operates **carrier-neutral data centers** in **Frankfurt am Main** and **Amsterdam** with a total capacity of about **11 MW** on an IT area of about **9,000 sqm**, on which a large number of carriers connect and offer access to important **internet exchange nodes** and **public clouds**.

Our current focus rests on the **sustainable operation** of our facilities. Together with our partners and customers, we are also pushing the expansion of digital and secure marketplaces (eco-systems) in our data centers.

maincubes is an active member of TeleTrust, Open Compute Project Foundation, Alliance for Cybersecurity, MindSphere World and Bitkom.
