

maincubes Expands its Management Team and Appoints Arne Weber as Chief Financial Officer (CFO)

Frankfurt, May 15, 2023 – maincubes, a leading German data center operator providing colocation solutions for public entities, global enterprises, and service providers, has announced today the strategic expansion of its management team with the appointment of Arne Weber as Chief Financial Officer (CFO) of the Group.

The development comes at a time of rapid expansion for the company, which recently announced that it has secured a new debt facility of over EUR1bn and the backing of its partners DTCP and Art-Invest Real Estate.

Arne brings to maincubes his extensive experience in international financial markets, deep expertise in building and scaling financial organizations, and a strong corporate finance / M&A background. He joins the organization from software company IMS Evolve, where during his time as CFO he played a key role in the company's significant international growth and general strategic and operative development. Throughout his career, Arne has also worked at several international investment banks in Frankfurt, London, and New York.

Speaking about his new role, **Arne Weber, maincubes CFO** shares: „It is a great honor to be part of this successful company and to contribute my expertise as CFO. I look forward to help drive further growth alongside the current management team and key partners – DTCP and Art-Invest Real Estate. My focus will be on building an efficient and scalable financial organization that supports the ongoing sustainable growth of maincubes.“

„With the appointment of Arne Weber, we are strengthening our leadership team and gearing up for the next stage of growth“, said **Oliver Menzel, CEO of maincubes**. „Arne is a perfect fit to take maincubes to the next level and I am very much looking forward to our collaboration“.

About maincubes

maincubes, headquartered in Frankfurt am Main and founded in 2012, plans, designs, develops and operates a network of high-availability datacenters of various sizes in Europe. In this way, maincubes creates carrier-neutral, secure and sustainable spaces for the IT infrastructure and, thus, creates an ecosystem for the digital future of its customers in various industries as well as the public sector. In September 2022, maincubes was able to win DTCP Infrastructure as a new strategic partner and investor. maincubes plans to invest more than €1 billion in new datacenters over the next few years.
